

Manual to create a shortcut between an your ORCID iD and the university bibliography

Go to <https://bibliographie.ub.rub.de/orcid/> and click on “Create or Connect your ORCID iD”.

The screenshot shows the website interface for RUB's Research Bibliography and Repository. At the top, there is a 'Beta' badge and navigation links for 'STARTSEITE | ÜBERSICHT | SUCHE | A-Z'. The main navigation bar includes 'Home' and 'New' buttons, along with a search bar and a 'Works' dropdown menu. The central content area is divided into three columns: 'Register works', 'Integrate with ORCID', and 'Embed work list'. The 'Integrate with ORCID' section contains a red arrow pointing to a button labeled 'Create or Connect your ORCID ID'. Below this, there are statistics for 'Registered works' (122357) and 'ORCID Members in RUB' (289).

Log in with your RUB-Login details and click on “Submit”.

The screenshot shows a login form with the heading 'Sign in with your RUB credentials'. It features two input fields: 'Username' with the text 'nachnvos' and 'Password' with masked characters. To the right of the password field is the word 'or'. At the bottom, there are two buttons: a red 'Clear' button and a blue 'Submit' button. A red arrow points to the 'Submit' button.

You will be asked to grant the RUB the following rights:

Integrate with your ORCID record

ORCID is an independent non-profit effort to provide an open registry of unique researcher identifiers and open services to link research activities and organizations to these identifiers. Learn more at orcid.org.

With just a few clicks RUB will make you and your work individually recognisable on the web and in important data sources.

Please grant RUB the following rights:

- 1 → **read limited**

This scope is used to get access to read public and limited visibility items on an ORCID record. RUB will use this scope to read your work data.
- 2 → **update activities**

This scope is used to write, update and delete items in the education, employment, funding, works and peer-review sections of an ORCID record. RUB will use this scope to add new works and a normalized description of your affiliation (RUB) to your ORCID record.
- 3 → **update personal information**

This scope is used to write, update and delete items in the other-names, keywords, countries, researcher-urls, websites, and personal external identifiers sections of the record. RUB will use this scope only to add external identifiers such as the researcher id to your ORCID record.

If you click on the button, you will be redirected to the ORCID login page for authentication or registration and authorization of the above scopes. We will only request this marked scopes. Please be sure to check "Allow this permission until I revoke it" on the following page.

Explanation of the rights

(1) read limited

This scope is used to get access to 'read public' and 'limited visibility' items on an ORCID record. 'Private' items will only be visible to you. With the 'read limited' permission you will allow us to implement your publications from your ORCID-profile into the university bibliography.

(2) update activities

This scope is solely used to add new publications to your ORCID record, extract these for the university bibliography, and identifiably link you to your affiliation (in this case: RUB). You may also deactivate this permission and take care of your publications in your ORCID record yourself.

(3) update personal information

This scope is used to update and maintain external identifiers such as names of universities, websites and your researcher ID.

Please grant these rights and click "Create or Connect your ORCID id".

Click on the “Sign In” button (3)...
